

## **Fair Share Policy**

All families are expected to participate in fundraising. This is both to support the Moses Lake Band Boosters and to support student travel. Each year, the booster club will assess a fair-share portion of their annual budget to each student. This year, that amount is \$25 per student. Families who choose not to participate in fundraising activities will be asked to submit the fair-share amount (\$25) out of pocket. For families who participate in fundraising, all money earned over (\$25 profit) will go to that student's fundraising/travel account. All Fair-share contributions should be paid immediately after the first official fundraiser. See also: Band Fundraising Policy.

### **Band fundraising policy (draft document)**

Monies raised through the Moses Lake(band) booster club belong to the club.

Individuals who work on behalf of the club can use club activities to generate funds to support their children's travel expenses.

The portion of money allotted for each student's travel expenses will be divided proportionally among individuals based on their level of participation in the fundraisers. This is after basic booster club operating expenses have been deducted.

Funds generated but not used will either be used 1) for the general good of the group; 2) for travel expenses-provided they are currently in the program as a band member or adult chaperone. Booster club funds (OR ASB) cannot be used to pay for uniform or equipment expenses.

It can be used for travel, meals, registration, clinics as these activities benefit the group. Purposes which generally benefit the individual are not supposed to be a target of booster funds. Citizens who support the booster club can expect that these funds will benefit the group.
